

## Elements by Townrange for Wood County

The Natural Heritage Inventory (NHI) database contains recent and historic element (rare species and natural community) observations. A generalized version of the NHI database is provided below as a general reference and should not be used as a substitute for a WI Dept of Natural Resources NHI review of a specific project area. The NHI database is dynamic, records are continually being added and/or updated. The following data are current as of 03/26/2014:

### Town Range

Scientific Name	Common Name	State Status	Federal Status	State Rank	Global Rank	Group Name
